YTMusicUploader.MainForm.
SetPaused

```
graph LR; A[YTMusicUploader.Business.  
PlaylistProcessor.Process] --> C[YTMusicUploader.MainForm.  
SetPaused]; B[YTMusicUploader.Business.  
FileUploader.Process] --> C;
```

The diagram illustrates a control flow where two business processes trigger a pause action in the main form. On the left, two white rectangular boxes represent the business processes: 'YTMusicUploader.Business.PlaylistProcessor.Process' (top) and 'YTMusicUploader.Business.FileUploader.Process' (bottom). Blue arrows point from the right side of each box to a single gray rectangular box on the right, labeled 'YTMusicUploader.MainForm.SetPaused'. This gray box represents the target action in the main form.
